ACKNOWLEDGEMENTS

I would first of all like to thank the Almighty God for His ability, provision and faithfulness to me while I was carrying out this research. The Lord has been my Ebenezer and I give Him all the glory and honor.

I would like to express my sincere gratitude to my Supervisor, Professor David Minja for his selfless support and guidance throughout the time of this research. May God bless you richly. I also want to thank my Reader, Mr. Samuel Muriithi for his continued support, guidance and helpful comments that challenged me to shape my work. I truly appreciated your guidance and may God bless you abundantly.

I would like to express my appreciation to my family members - My husband, Simon, my daughter Bernice, and my sons, Caleb and Titus. You are all a blessing to me. Thank you for your love, prayer and encouragement. I thank God for all of you and may the Almighty God bless you for being there for me.

I would also like to appreciate the Management of Pan Africa Christian University, for allowing me to do research in the institution and for the support they accorded me during the time of my research. To all the staff and students of Pan Africa Christian University, God bless you.

Last but not least, I would like to appreciate Greenhouse Church members, my sisters Elizabeth and Lucy, and friends Serah Mkala, and Lizzie Gachie for their prayer support. God bless you and know that your labor in the Lord is not in vain (2 Corinthians

15:58).

DAYSTAR UNIVERSITY

ABSTRACT

Adoption of new and relevant strategies to gain sustainable competitive advantage is necessary in Christian universities. Strategies in an organization determine competitive advantage. The goal of this research was, therefore, to widen the sphere of knowledge and understanding about strategies adopted by Christian universities to gain sustainable competitive advantage. The objectives of this research were to identify the strategies adopted by PACU to gain a sustainable competitive advantage, to establish the effects of using various strategies to gain sustainable competitive advantage, to identify the challenges facing PACU in gaining sustainable competitive advantage, and to establish possible solutions to confront the challenges facing PACU.

The data collected was analyzed using both qualitative and quantitative methods of data analysis. The findings were presented using mainly tables as well by a presentation of reports of the analysis of the various themes arising from the responses received from the participants. On effects of using various strategies, the participants expressed a variety of opinions. Quality products and service lead to satisfied customers and in return, they recommend other customers to join the university. Low fees as a strategy were discouraged by some participants. Challenges facing PACU were expressed differently by various participants. Lack of funds was expressed as a major challenge at PACU. To achieve sustainable competitive advantage, sustainable strategies were suggested by various participants. PACU needs to adopt timely implementation of strategies, and introduce a variety of unique programs and aggressively market them. These programs need to be competitive and of good quality.

DEDICATION

This thesis is dedicated to my husband Simon, our daughter Bernice, and our sons, Caleb and Titus, with great love.
