

Title

Single Adults in an African City: Nairobi Christian Single Adults Survey

Author

Faith Nguru

Abstract

The idea of this book began a decade ago when a group of single adult women met to share their experiences as Christians in a culture that highly values marriage. In order to validate their experiences, a more recent empirical research project was designed to capture the views of both men and women who were wrestling with the challenges of singlehood. Those who provide ministry to the single adults were interviewed in order to present a fuller account of the church as a context within which believers are nurtured towards fullness in Christ.

Keywords

Single Adults; Nairobi Christian Single Adults
